WELCOME!

Thanks for your interest in working together.

At Haven Interiors our mission is to create a home you love - one that meets your needs, reflects your lifestyle and provides a welcoming space where you can thrive.

As the founder and principal designer of Haven Interiors, I'm involved in every step of the design process. I adore working with clients to blend your vision with our expertise to create custom interiors.

Moving to a new city or updating your house can be overwhelming. I've relocated internationally multiple times and renovated my own home, so I know the challenges it brings! Establishing a sense of home and creating a sanctuary for you and your family is essential for a well-lived life.

Our approach to thoughtful, tailored design will provide you with the knowledge and guidance to create a beautiful space and confidently make design decisions for your home.

This introduction packet outlines everything you need to know about working with us, what to expect for your project and what we need from you to get started.

Now let's create a home you love!

RECENT WORK

We created this sophisticated living space for a busy entrepreneur who loves entertaining. By creating multiple seating areas, the large room is perfect for an intimate gathering or large party. We combined shades of blue and raspberry with soft neutrals and brass accents. The result is a perfect reflection of her!

RECENT WORK

This project was an opportunity to update an entire home, creating a fresh and welcoming space for a young family. We utilized the abundance of natural light to curate open, airy spaces and incorporated bold accents, patterns and fixtures that balanced the space.

FAQS

1

Do I need a clear idea of what I want before we start working together?

Not at all! We're here to help guide you through the process, whether you already have an overall vision or just know the feel you want to create. We work closely with you to understand your lifestyle, preferences, and needs, and we'll present design options that help bring your ideas to life.

2

Do you work with contractors, architects, or other professionals?

Yes, we can coordinate with contractors, architects, and other trade professionals (painters, plumbers, electricians) if your project requires any construction, renovations, or specialized services. You can use any construction team you desire or we can recommend professionals to ensure a seamless process from start to finish.

3

Can you help me stay within my budget?

Yes, absolutely. We understand that budget is an important consideration, and we'll work with you to create a design that maximizes your investment. We'll discuss your budget early on and recommend options that fit within it, while still achieving the aesthetic you want for your space.

4

Do you offer virtual design services?

We offer virtual design services for clients who may not be local or prefer to work remotely. We can create design concepts, provide mood boards and floor plans, and guide you through the process using digital tools, ensuring a seamless experience no matter where you are.

5

How do I get started with my interior design project?

Getting started is easy! Simply schedule a complimentary Discovery Call. During this initial conversation, we'll discuss your goals, budget, timeline and scope of the project. From there, we can arrange the service that is right for you and create and start working together to transform your space.
